Full Name	Department
Sarah Chen	Product Engineering
Employee ID	Shift / Hours
NXT-3102	9:00 AM - 6:00 PM (Standard)
Position	Relationship to Parties
Software Engineer	Same team as Complainant and Respondent

STATEMENT

I, Sarah Chen, provide the following statement voluntarily regarding Case 2024-089.

On **January 22, 2024**, at approximately 12:30 PM, I was in the 4th floor break room having lunch. Alex Rivera was also in the break room getting coffee. Jordan Blake entered the break room and made a comment about Alex's appearance. The exact words were something like:

"You look really nice today, Alex. That outfit really suits you. You should dress like that more often."

The tone of the comment felt inappropriate for a workplace setting, especially coming from a supervisor. Alex appeared visibly uncomfortable and left the break room shortly after. I noticed Jordan watching Alex leave. There were approximately 3-4 other people in the break room at the time, though I cannot recall all of their names.

In the weeks following this incident, I observed that Jordan seemed to pay particular attention to Alex during team meetings, frequently directing questions specifically at Alex and making comments about Alex's work that felt more personal than professional. I also overheard Jordan asking Alex to stay late on at least two occasions, though I left the office at my normal time and cannot speak to what happened after hours.

I did not directly observe the **February 5** incident referenced in the complaint, as I was working from home that day. However, another colleague (Marcus Williams) mentioned it to me the following day.

I want to note that prior to mid-January, I had not observed any inappropriate behavior from Jordan toward Alex or any other team member. Jordan generally seemed professional in team settings.
