Employee ID	Shift / Hours
NXT-3287	6:00 AM - 2:00 PM (Early Shift)
Position	Relationship to Parties
QA Engineer	Works on same floor, different team

STATEMENT

I, Priya Patel, provide the following statement voluntarily regarding Case 2024-089.

I work on the QA team on the same floor as the Product Engineering team. I interact with both Alex Rivera and Jordan Blake occasionally during cross-team standups and in common areas.

I have **never personally observed** any inappropriate behavior from Jordan Blake toward Alex Rivera or any other employee. In my interactions with Jordan, he has always been professional and courteous. I have attended several cross-team meetings where both Alex and Jordan were present, and I did not notice any concerning dynamics.

I am not aware of the specific incidents described in the complaint. I was not present in the break room during the alleged January incident, and I am not typically in the office during evening hours when the overtime requests allegedly occurred.

I do recall seeing Alex and Jordan having what appeared to be a normal conversation in the hallway in late January. Nothing about their interaction seemed concerning to me.

I want to state that I consider Jordan to be a good manager based on my limited interactions. However, I acknowledge that I may not have visibility into interactions that occur outside my working hours.
